

Log Cabin 10K

Course Description

Start and finish at the utility pole across from the front door of the Cabin. Run against traffic on the left side of road and turn left shortly before the 1 mile mark onto rte 31. Pass under railroad bridge. Careful here because of blind corner and narrow road. Continue straight over rte 2. 2 mile mark will be at the half way point of the bridge. Run past the entrance to the Fitchburg landfill. The 3 mile mark will be shortly before the turn around point. The turn around point will be approximately 30' past the guard rail. It will be marked with orange paint. It is suggested you run with traffic at this point. The 4 mile mark will be just past the entrances and exits to 2E. Be cautious once again when passing under the railroad bridge. After the 5 mile mark stay to the right at the stop sign back onto Westminster St. The 6 mile mark will be across the street from the closed restaurant. The finish is at the same spot as the start. All mile marks and turns will be marked in orange paint.
